Sarvan

The screenshot displays the Docker Desktop website in a web browser. The browser's address bar shows the URL `docker.com/products/docker-desktop/`. The website's header includes the Docker logo, navigation links for Products, Developers, Pricing, Support, Blog, and Company, and buttons for Sign In and Get Started. The main content area features the heading "Docker Desktop" followed by the large, bold headline "The #1 containerization software for developers and teams". Below this headline is the tagline "Your command center for innovative container development". Two primary call-to-action buttons are visible: "Create an account" and "Download for Windows". A secondary button, "Download for Windows", is also present, which likely triggers a dropdown menu for other operating systems. The browser's taskbar at the bottom shows the Windows search bar, taskbar icons, and system tray information including the date and time.
